PROFILE

Final-year Computer Science and Engineering student at BRAC University with a background in research, data analysis and team-based software development. Served as Scrum Master on a team software project, and is completing a thesis evaluating AI language models in Bengali and English.

EDUCATION

B.Sc. in Computer Science and Engineering, BRAC University, Dhaka | CGPA 3.35/4.00 — Expected January 2027
HSC, Birshrestha Munshi Abdur Rouf Public College, Dhaka Board | GPA 5.00/5.00 — 2020
SSC, Feni Government Girls' High School, Comilla Board | GPA 5.00/5.00 — 2018

Relevant coursework: Data Structures, Algorithms, Database Systems, Software Engineering, System Analysis and Design, Data Science, Statistics and Probability, Numerical Methods, Introduction to Microeconomics, Introduction to Robotics.

PROJECTS AND RESEARCH

Undergraduate Thesis: Bengali–English LLM Mental Health Support | *Research* — 2026–Present
- Designing a controlled evaluation of AI model responses in Bengali and English and analysing where they differ.
- Wrote the P1 and P2 thesis reports and presented the research as an academic poster.

Mass Transit Control System | *Node.js, Express.js, MongoDB; Agile (Scrum) team project*
- Served as Scrum Master for two sprints, coordinating the team's work under the Agile Scrum method.
- Built seven features: administration, lost-and-found, delay alerts, trip feedback, fare waivers and a bilingual interface.

Bracu Network: Campus Network Design | *Cisco Packet Tracer; group project* — 2025
- Designed the IP addressing for six department LANs and configured routing, DHCP, DNS, web and email services.

Multi-Label Movie Genre Prediction from Posters | *Python, scikit-learn; team of three*
- Trained and compared three machine learning models; wrote the literature review and the paper.

Street Food Culture in Dhaka | *Field research and documentary*
- Interviewed eight street-food vendors across Dhaka, edited the documentary and wrote the research paper.

Mapper Robot, Digital Voltmeter and Digital Calculator | *Hardware projects*
- Built an obstacle-avoiding robot with a camera, a flash ADC digital voltmeter (2026) and a calculator (2025).

Other software projects
- 3D underwater simulation (Python, OpenGL, 2025); HR management web app (2024); simple file system (2026).

CO-CURRICULAR ACTIVITIES

- **Residential Semester, TARC Campus, Savar (2023)**
  - Took part in debates, drama, impromptu speaking and presentations; joined a campus clean-up as service learning.
  - Glass painting, a museum visit report and a book review of *In a Land Far from Home: A Bengali in Afghanistan*.
- **Agent X AI Prompting Competition (2024):** participant; built an AI chatbot as the competition entry.

SKILLS

Analysis: Data analysis, statistics, exploratory data analysis, Microsoft Excel, Python, SQL, R
Teamwork and communication: Agile (Scrum), group coordination, report writing, poster presentation, interviewing
Technical: JavaScript, Node.js, MongoDB, Git, Linux, Figma, LaTeX
Training: DataCamp, six courses in data science and statistics; Microsoft 365 Copilot, seven courses and badges
Languages: Bengali (native), English (fluent), Chinese (currently studying)
